NSDL launches Trade Repository for Corporate Bonds

Participants are hereby informed that NSDL has launched a Trade Repository for Corporate Bonds which will provide consolidated information on primary issuance and secondary market trades reported on stock exchanges. Currently, the information pertaining to primary issuance and secondary market trades in corporate bonds are available in fragmented manner. With NSDL's Trade Repository, all primary issuance and secondary market data available across depositories and exchanges will be available at single location and will provide a single view for the benefit of the market. This will enhance transparency in the market and enable investors to take an informed decision.

The link for NSDL's Trade Repository is available at www.nsdل.сo.in under the menu "Data Releases". Participants are requested to take note of the same and inform their clients suitably.
