### Availing e-KYC service

SEBI has already permitted use of Aadhaar e-KYC service launched by UIDAI which provides an instant, electronic, non-repudiable proof of identity and proof of address along with date of birth and gender (digitally signed and encrypted). In addition, it also provides the resident's mobile number and email address (if available) to the service provider, which helps to further streamline the process of service delivery. e-KYC may be performed at the service centre of Participant using biometric authentication, as well as remotely using an OTP on a website or mobile connection. Considering the benefits and convenience of e-KYC, Participants may consider using the e-KYC services.
