Combined Delivery Instruction Slip (DIS) Issuance and Processing

With respect to the Combined Delivery Instructions by Client and Amendment to Business Rules, Participants are requested to take note of the following:

1. The DPM system validates mapping between Client ID and DIS serial number and other details viz. transaction type, format of DIS etc. at the time of execution of DIS. In respect of combined DIS, it may be mentioned that Participants may upload DIS details in DIS Issuance Master under any of the 'Transaction Type' viz., 'Account Transfer' or 'Inter Depository Transfer'. Further, in order to facilitate Participants, a feature has been incorporated in the DPM system to allow execution of both transaction types i.e. 'Account Transfer' or 'Inter Depository Transfer' even though the DIS is uploaded in the DIS Issuance Master under any of the transaction type.
2. A DIS serial number can be used for same transaction type either for 'Account Transfer' or 'Inter Depository Transfer'. The transaction type and execution date for a DIS serial number will be determined by the DPM system on the basis of first instruction entered in DPM system. For example: if first instruction against a DIS serial number is a 'Account Transfer', then the other instructions being entered under the same DIS serial number must be for transaction type 'Account Transfer' only.
3. The same DIS shall not be used for giving both 'Account Transfer' and 'Inter-Depository Transfer' instructions and shall not be used for transactions with **multiple** execution dates.
