TOPIC OF INTEREST

Know more about Transmission

1. What does transmission mean in relation to demat accounts?

Ans: Transmission is the process by which securities of a deceased account holder are transferred to the account of the surviving joint holder(s)/ legal heirs / nominee of the deceased account holder. The process of transmission in case of dematerialised holdings is more convenient as the transmission formalities for all securities held in a demat account can be completed by submitting documents to your DP whereas in case of physical securities the surviving joint holder(s)/ legal heirs/ nominee has to correspond independently with each company in which shares are held.

2. What is the procedure for transmission of securities to the nominee in case of the death of the sole account holder?

Ans: In case of the death of the sole holder, for the purpose of transmission of securities, the nominee has to submit a duly filled-in transmission form alongwith a certified true copy of the death certificate (or a duplicate copy of death certificate if original is lost or misplaced). After verifying these documents and if found in order, Participant will transmit the securities to the account of the nominee.
