

COMMERCIAL PAPER (CP)

OPERATIONAL GUIDELINES ON CPs EFFECTIVE FROM 10th AUGUST, 2017

RBI published the revised Commercial Paper Directions, 2017 on 10.08.2017. As per these directions issuers, investors and IPAs shall follow the standard procedures and documentation prescribed by FIMMDA as 'Operational Guidelines on CPs'. Accordingly, FIMMDA revised its operational guidelines on CPs which are appended.

Efforts have been made in these guidelines to protect the interest of all stake holders while giving additional comfort to trade the most liquid Money Market instrument across the country in the demat mode.

CP universally is an unsecured short-term debt paper. Considering different stamp duty structures applicable for primary market debt instruments (depending upon the State) and the fact that the stamp duty for Usance Promissory Note (UPN) of short term maturity (up to one year) is lowest among all unsecured debt products, it is retained as UPN. Further stamping of UPN is under the purview of the Central Act.

CP, now, being a standalone product will be held in demat mode by all. Due to complexity of legal frame work and in order to protect the interest of various market players / participants for ensuring smooth flow of the transactions in the CP market, the Issuing and Paying Agent ("IPA") will play a prominent role and hence made more accountable.

Only scheduled Banks can act as an IPA. This is to ensure that the guidelines prescribed are diligently followed by issuers and the object of investor protection is not diluted in any manner.

Based on the market experience, the operational guidelines will be reviewed by FIMMDA in consultation with RBI from time to time. The operational guidelines are framed in line with the Directions of RBI and after having discussions with RBI.

In order to reflect the new RBI directions and operational guidelines, we recommend that the IPA agreement in the revised format may be executed afresh for the new CP issuances.

15. If a CP is supported by a standby assistance/backstop facility/irrevocable guarantee, the issuer must appoint an independent trustee.

Process of issue of Commercial Paper:

Eligible issuer will approach IPA for its entire CP programme or a specific tranche of the CP.

Issuer would enter into with IPA, an agreement (format appended) which would be stamped in accordance with the state stamp duty applicable to the agreement as applicable in the state of execution.

Issuer should have an arrangement with Depository for its CP issuance. Depository requires an agreement to be executed with it along with its Registrar and Transfer Agent. The Issuer is required to comply with the formalities and procedure prescribed by Depositories.

Once this arrangement is in place, the Issuer can get ISIN created by submitting the “letter of intent” in the stipulated format along with other necessary documents as prescribed by the Depository. All securities held in specific ISIN number will have same maturity date and other characteristic features, irrespective of the fact when the security (CP) is created / issued. Importantly, ISIN should be in place and activated before a CP programme starts.

The ISIN is created based on the maturity date of the CP. The CP programme / tranche issued must be completed within a period of two weeks from the date of commencement of the issue. The ISIN number should be made known to the IPA for control purposes through Issuer/ Registrar and Transfer Agent.

IPA should have **CP Securities Account** wherein all demat credits would flow in from the Registrar and Transfer Agent for onward transfer to the respective investor/s account. IPA should have an exclusive **CP Funds Account** (a separate account operable by the IPA) for each such issuer for crediting the funds received from the investors on issue of the Demat CP. From this account, the funds will be transferred to the issuers’ normal account.

Since several series of CPs of an issuer may simultaneously be open in the market, to keep track of funds received etc. it will be in order to maintain a separate current account called as “**CP Funds Account--(Company)**”.

As soon as the CP is subscribed (by negotiation or by book building process), the Issuer exchanges Deal Confirmation Note (Annexure V) with the investors. Issuer will submit full details to the IPA such as:

1. Value Date of deal
2. Name and address of the counter party
3. Contact person’s name, telephone, fax numbers etc.
4. Details of the DP account of investor/buyer such as client name, client ID, DP a/c No., DP ID etc. as contained in the Deal Confirmation Notes as also the jumbo CP.
5. FV of CP to be delivered and consideration to be received.
6. Letter/mail from the investor giving the depository details of the investor.
7. Consolidated list of CPs to be issued for different value date.
8. Confirmation that the investors are not out of related parties as defined in section 2 (76) of Companies Act, 2013.

Issuer will approach the IPA preferably a day before the actual issue of the CP, and submit original rating letter issued by CRA/s for perusal and return the same.

It will also submit a single promissory note for total FV of the CPs (Jumbo Promissory Note as set out in Annexure III) to be issued (Ref to ISIN may be given), duly stamped and executed. **Issuers are encouraged to issue digitally signed usance promissory note.** The stamping of the UPN would be as per the Indian Stamp Act. The current stamp duty structure is given in Annexure VII. **The stamp duty as per Annexure VII may be paid online and the Electronic - Secure Bank and Treasury Receipt (e-SBTR) may be submitted to IPA.** In case the issuer is not in a position to make payment of stamp

duty through e-SBTR, it can make the payment as per the manual process. The issuer can also submit a payment challan copy.

IPA, after verification of the consolidated UPN can prepare an IPA certificate as per Annexure IV and make available the same in electronic form on the website of the depositories for the CPs. IPAs are encouraged to shift to issue of digital signature certificates.

Upon the instructions of the issuer the Registrar and Transfer Agent will submit an instruction to depository to credit the Demat CPs to the IPA's CP Securities account. In no case Registrar and Transfer Agent is authorized to issue CPs for the credit of investors' account directly. It has to necessarily pass through the "IPA's CP Securities Account only."

Depositories should not accept instructions on its system for the direct credit of CPs by the Registrar and Transfer Agent/s to investor/s account, in the primary market and to place a suitable mechanism to ensure this.

On value date, upon the receipt of the stated consideration by approved mode, the IPA will pass on delivery instructions to its DP to transfer the securities (giving the reference to ISIN No) to investors' account as per Issuer's consolidated letter. Funds are deposited in the Issuer's account with IPA.

The IPA will hold consolidated UPN by making suitable remarks on it, which reads as follows.

"Issuer has created electronic security against the UPN with ----- (Name of the Depository) bearing ISIN No: --- for the credit of investors' account with DPs stated in issuers letter dated ---and not available for trade in the secondary market."

The CP in UPN form will not be cancelled when the security in demat is created. However, the UPN with notings stated above on the face of it, will be kept with IPA and would thus not be available to the market for trading. The IPA shall ensure that the issuer has created electronic security against the UPN bearing the ISIN.

Process of Redemption:

One working day before the maturity date, IPAs will send a request to the depositories to give a list of investors (BENPOS report) as at the end of that day with their bank account details. No transfers/transactions will be permissible on maturity date of CP. The depositories will furnish the list of investors/holders of CP before 11:00 A.M. on the maturity date. Subject to availability of funds in the Issuer's account, the IPA can make full/pro-rata redemption payment to the investors/holders of CP. When CPs are fully redeemed IPA will advise the depositories through Registrar and Transfer Agent to extinguish the CP as a debit corporate action on the same day.

Maturity date for CP is final date of payment and no days of grace are allowed.

On maturity date, by 2 p.m., the Issuer should make clear funds available in the funding account, which is maintained with the IPA exclusively for the purpose of

issue and redemption of CPs. The Issuer, while providing funds, may demarcate funds for redemption of specific issue(s).

The Issuer will be wholly responsible to make clear funds available to the IPA for settlement of CP on the maturity date.

Unless otherwise instructed, the IPA would settle the CP by electronic transfer of funds on due date.

If funds are not available in the Issuer's account on due date, the IPA would promptly advise the default to the holders of CP/trustee, if any and on F-TRAC platform.

The holders would have recourse to the Issuer and stand-by credit provider (through trustee, if any), on the strength of default advice received from IPA.

Default/Delay in Redemption:

The IPA is required to report the details all instances of default in CP payments on the F-TRAC platform (after these functionalities are made operational), by close of business hours of the day of default.

The IPA will also report the delay (technical delay-RTGS/NEFT/Market Disruption) in funding the CP Funds Account for redemption on maturity date. For this purpose, the time fixed in these CP Operational Guidelines will be the cut-off time.

The issuer who has defaulted on a CP shall not be allowed to access the CP market for six months from the date of repayment of the defaulted obligation.

Registrar and Transfer Agent must not extinguish the redeemed securities at the instance of the issuer.

IPA has been made the nodal point to protect the interest of the investors. In case of inadequacy of funds in 'CP Funds Account' of issuer, to redeem all the CPs due on that day, the payment should be made to the holder/s on pro rata basis.

In case of default, the IPA will intimate the investors, Depository, Registrar and transfer agent, Trustee if any and the CRA concerned.

Holiday Convention:

The original redemption date should be a Mumbai Business Day. FIMMDA Handbook of Market Practices be followed for holiday convention including unscheduled holidays.

Market Conventions:

The CP is quoted in terms of yield, which is calculated based on actual number of days/365 days. All market conventions referred to herein would mean FIMMDA's market conventions appearing in the latest version of Handbook of Market Practices.

CP-Credit Enhancement:

- a) Banks and FIs may, based on their commercial judgement, choose to provide stand-by assistance/credit, back-stop facility etc. by way of credit enhancement for a CP issue.
- b) Non-bank entities (including corporates) may provide unconditional and irrevocable guarantee for credit enhancement for CP issue provided the offer document for CP properly discloses the net worth of the guarantor company, the names of the companies to which the guarantor has issued similar guarantees, the extent of the guarantees offered by the guarantor company and the conditions under which the guarantee will be invoked.

Format of Credit Back Stop Facility:

FIMMDA does not specify any specific format for credit backstop facility that can be provided by Bank/FI to the CP issue. The wording would depend upon the specific case.

The Backstop agreement can cover specific issue or the entire commercial paper programme of the issuing corporate, PD/SD, etc. as the case may be. The backstop should be in the form of an unconditional guarantee and should be available to the Trustee to facilitate redemption of the CP/CP programme of the issuer.

The backstop facility letter should state that it is issued within the prudential norms as applicable to issuer Bank/FI and has been subject to the specific approval of the Board of the said Bank/FI.

Such back stop facility/guarantee should mature at least after 7 working days from the CP maturity date to enable the beneficiary to lodge the claim.

Stamp Duty on CP

The stamp duty on issuance of CP is governed by the Indian Stamp Act and is under the purview of the Central Government. Stamp duty has been revised effective September 12, 2008. The stamp duty payable on CP by the issuer is based on the period for which the CP/UPN is issued.

Structure of Stamp Duty

(Effective from September 12, 2008)

Usance Period Promissory Note	Stamp Duty (Rs. per thousand or part thereof)
I. Up to and including 3 months	0.12
II. Above 3 months up to and including 6 months	0.24
III. Above 6 months up to and including 9 months	0.36
IV. Above 9 months up to and including 1 year	0.50
V. Above 1 year	1.00

Three months could have 89/90/91/92 days as the case may be. The stamp duty should be calculated based on months, while consideration, based on yield, is worked out based on the actual number of days.

e.g. CP is placed for 3 months say on 01.02.17 15.06.18
 Corresponding due date: 01.05.17 15.09.18
 No of days 89 92
 In both cases (above) stamp duty for 3 months is payable.

N.B. Any changes/amendments as announced by Central Government from time to time will have to be complied with.
