NSDL launches NSDL Certification in Depository Operations (NCDO)

In order to increase the availability of trained personnel for depository operations, NSDL has launched NSDL Certification in Depository Operations (NCDO). NCDO oriented training programme covers various aspects of depository operations followed by a written test. Certificate is given to the participant on successful passing of the test which is valid for a period of five years. The persons holding the certificate will be considered as qualified personnel in relation to the requirement for service centres of the Participant.

The first such NCDO programme was conducted in Mumbai on March 7, 2009. Similar programmes are scheduled to be held at New Delhi and Kolkata (on March 21, 2009) and at Chennai (on March 25, 2009).

Feature of partial settlement of pay-in related instructions executed from Client to Clearing Member Pool Account

A feature for partial settlement of pay-in related instructions is developed. As per this feature, in case of insufficient balance in Client's account, instructions given by a Client to transfer securities from its account to the Clearing Member (CM) Pool Account will get executed to the extent of balance available in the Client's account at the time of pay-in of securities. This feature is proposed to be effective from March 21, 2009.
