August 2000

NSDL plans to launch a software to enable DP branches to be online connected to the main office

NSDL will launch its new WAN to WAN facility. A software would be provided to enable the branch of a depository participant to directly connect to the main office of the depository participant. The depository participant can use its own network for this purpose.

SEBI directive on Account Opening

The Securities and Exchange Board of India has issued guidelines for the due diligence needed for opening of depository account.

- (a) A beneficiary account must be opened only after obtaining a proof of identity of the applicant. The applicant's signature and photograph must be authenticated by an existing account holder or by the applicant's bank or after due verification made with the original of the applicant's valid passport, voter ID, driving license or PAN card with photograph
- (b) the account opening form should be supported with proof of address such as verified copies of ration card/passport/voter ID/PAN card/driving license/bank passbook. An authorised official of the Participant, under his signature, shall verify the original documents.

SEBI has also directed all Participants to immediately verify the accounts of all the beneficiary owners who have opened accounts with them and confirm in writing to NSDL, within 30 days of receipt of the aforesaid letter, that Participants have fully complied with the abovementioned procedure in all the cases.

In case any account holder fails to produce the original documents for verification within the aforesaid period of 30 days, it must be immediately brought to the notice of NSDL. Failure to produce the original documents within the prescribed time would invite appropriate action against such account holders, which could even include freezing of their accounts.
