5. Pledgor DP will have to confirm the instruction manually each time or set the flag Auto Release flag as 'Direct' so that such instruction(s) are not required to be manually confirmed each time. Hence, in case the flag named 'Auto-Release' checkbox is selected and enabled by the User of the Pledgor DP, then all the subsequent instructions will be automatically confirmed, without the need to manually confirm each of the instructions of the Client. However, TPLAS related instruction(s) that are submitted by client for the first time will always be required to be confirmed manually by the User of the Pledgor DP.
