Know more about Applications Supported by Blocked Amount (ASBA)

1. What is “ASBA”?

ASBA means “Application Supported by Blocked Amount”. ASBA is an application containing an authorization to block the application money in the bank account, for subscribing to an issue. If an investor is applying through ASBA, his application money shall be debited from the bank account only if his/her application is selected for allotment after the basis of allotment is finalized, or the issue is withdrawn/failed.

2. Detailed procedure of applying in IPO through ASBA.

Under ASBA facility, investors can apply in any public/rights issues by using their bank account. Investor submits the ASBA form (available at the designated branches of the banks acting as Self Certified Syndicate Banks (SCSBs) after filling the details like name of the applicant, PAN, demat account number, bid quantity, bid price and other relevant details, to their banking branch by giving an instruction to block the amount in their account. In turn, the bank will upload the details of the application in the bidding platform. Investors shall ensure that the details that are filled in the ASBA form are correct otherwise the form is liable to be rejected.

3. Who can apply through ASBA facility?

SEBI has been specifying the investors who can apply through ASBA. In public issues w.e.f. May 1, 2010 all the investors can apply through ASBA.

In rights issues, all shareholders of the company as on record date are permitted to use ASBA for making applications provided he/she/it:

- is holding shares in dematerialized form and has applied for entitlements or additional shares in the issue in dematerialised form;
- has not renounced its entitlements in full or in part;
- is not a renouncee;
- who is applying through blocking of funds in a bank account with the Self Certified Syndicate Bank.

4. What advantage an investor has in applying through ASBA vis-à-vis applying through an application with a cheque?

Applying through ASBA facility has the following advantages:

- The investor need not pay the application money by cheque rather the investor submits ASBA which accompanies an authorization to block the bank account to the extent of the application money.
- The investor does not have to bother about refunds, as in ASBA only that much money to the extent required for allotment of securities, is taken from the bank account only when his application is selected for allotment after the basis of allotment is finalized.
- The investor continues to earn interest on the application money as the same remains in the bank account, which is not the case in other modes of payment.
- The application form is simpler.
- The investor deals with the known intermediary i.e. its own bank.
